

COURSE OUTLINE

Editing PDFs with Bluebeam, the leading PDF markup and management software in the AEC Industry, students will learn how to markup, organize, review and compare, measure, and collaborate their drawing sets. The hands-on one day course begins by learning the fundamental features of Bluebeam Revu Standard, CAD, and Extreme. The class progresses with markup drawings, organizing the set with labels and hyperlinks, comparing changes between sets, measuring and creating material takeoffs, finishing with an overview of the cloud based tools Sessions and Projects. Upon completing the course you will have the knowledge of markup and maintain PDF documents.

Class Duration: 1 day

Topics
